

Mechanical Engineer (licensed P.E.)

DEVITA is currently accepting resumes for Mechanical Engineers. This position provides a leadership opportunity within our MEPS Division. If you have experience, a passion for excellence, a take-charge attitude and the desire to join a full-service engineering firm with solid opportunities for growth, send us your resume today for immediate consideration.

Mechanical Engineers are responsible for:

- Designing mechanical systems for commercial and manufacturing facilities. Systems include HVAC, plumbing, utilities piping, compressed air, fire protection, and dust collection
- Supervising and checking the work of Mechanical Designers assigned to the project team
- Coordinating technical project requirements with the project team, including clients, project managers, other mechanical engineers and mechanical designers

Qualifications:

- 5 - 15 years of experience in the design of commercial and/or industrial HVAC systems
- B.S. Degree in Mechanical Engineering
- Professional Engineering licensure required with multistate eligibility
- Excellent communication skills
- Proficiency in AutoCAD 2008 or later
- Strong computer skills in Microsoft Word, Excel and Outlook
- Consulting firm experience a plus
- Familiarity with REVIT MEP a plus
- Interest and experience in sustainable design; LEED experience a plus
